1. General Info

- Cash Out allows customers to sell the whole or portion of their bet tickets before the results of selected events or fixtures are determined. Note that customer can cash out a ticket several times.
- Cash Out is available only for In-Running ("Live") Betting events, fixtures or markets having a Cash Out icon. Cash Out is not available in Parlays, other multiple betting options and bets using free bets.
- For tickets that have been Cash Out:
  - Licensee receives from Company a Cash Out Commission, proportionally with the Buy Back Amount.
  - Licensee still bears ticket win loss on full stake. Company will be responsible for the win loss on the portion that have been Cash Out.
  - Licensee pays Buy Back Amount to customers in advance. This amount will be paid back by Company at the end of the month.
- The Cash Out Win Loss report summarizes win loss data of Cash Out tickets which helps Licensee monitor Cash Out performance within a selected date range and the amount needed to be settled with Company.
- This report contains only won/lose/draw tickets.
- This report supports up-to-date data. Licensee can filter data up to 3 months per query.

2. Money Flows

The diagrams below shows the circular flow of money between Company, Licensee and Customer with or without Cash Out

2.1. Sportsbook Tickets

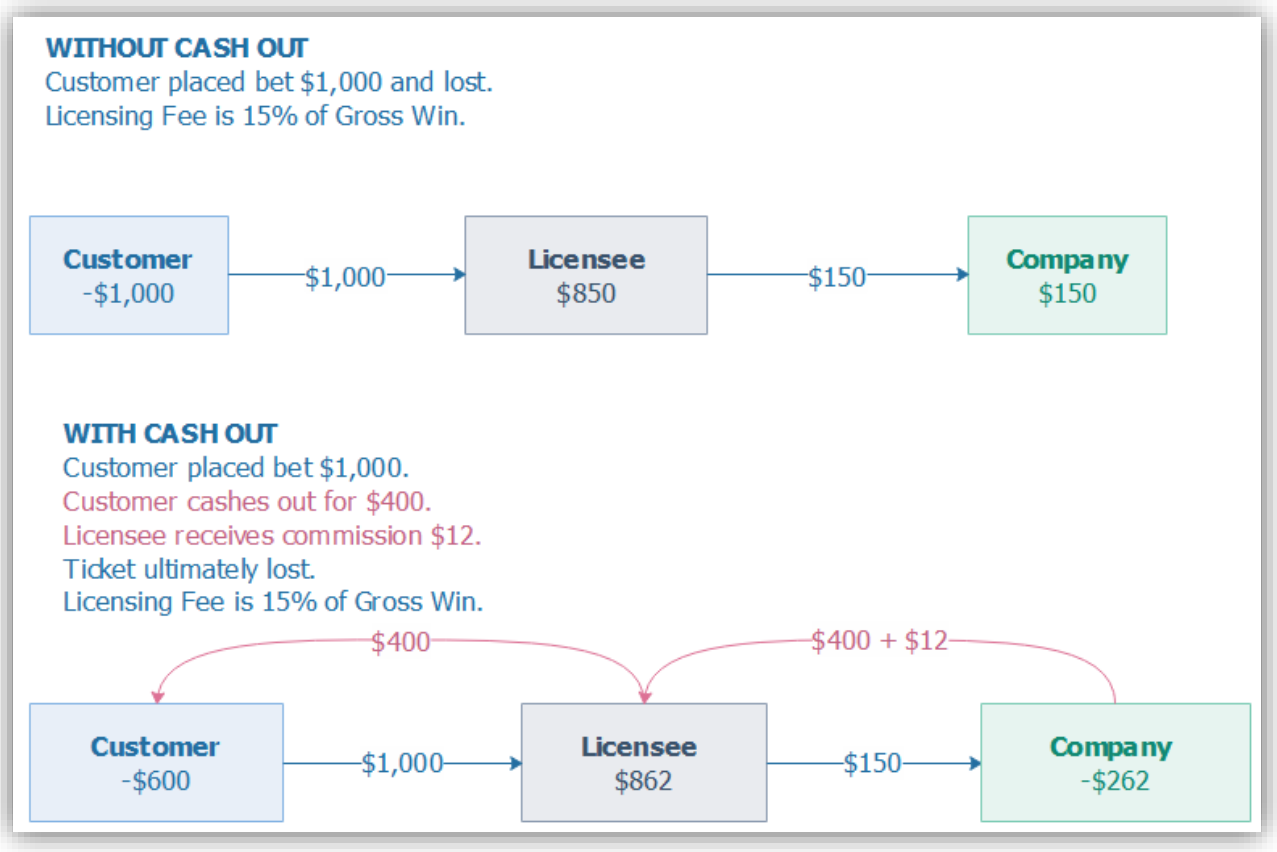

Figure 2.1.1. Cash out a losing Sportsbook ticket

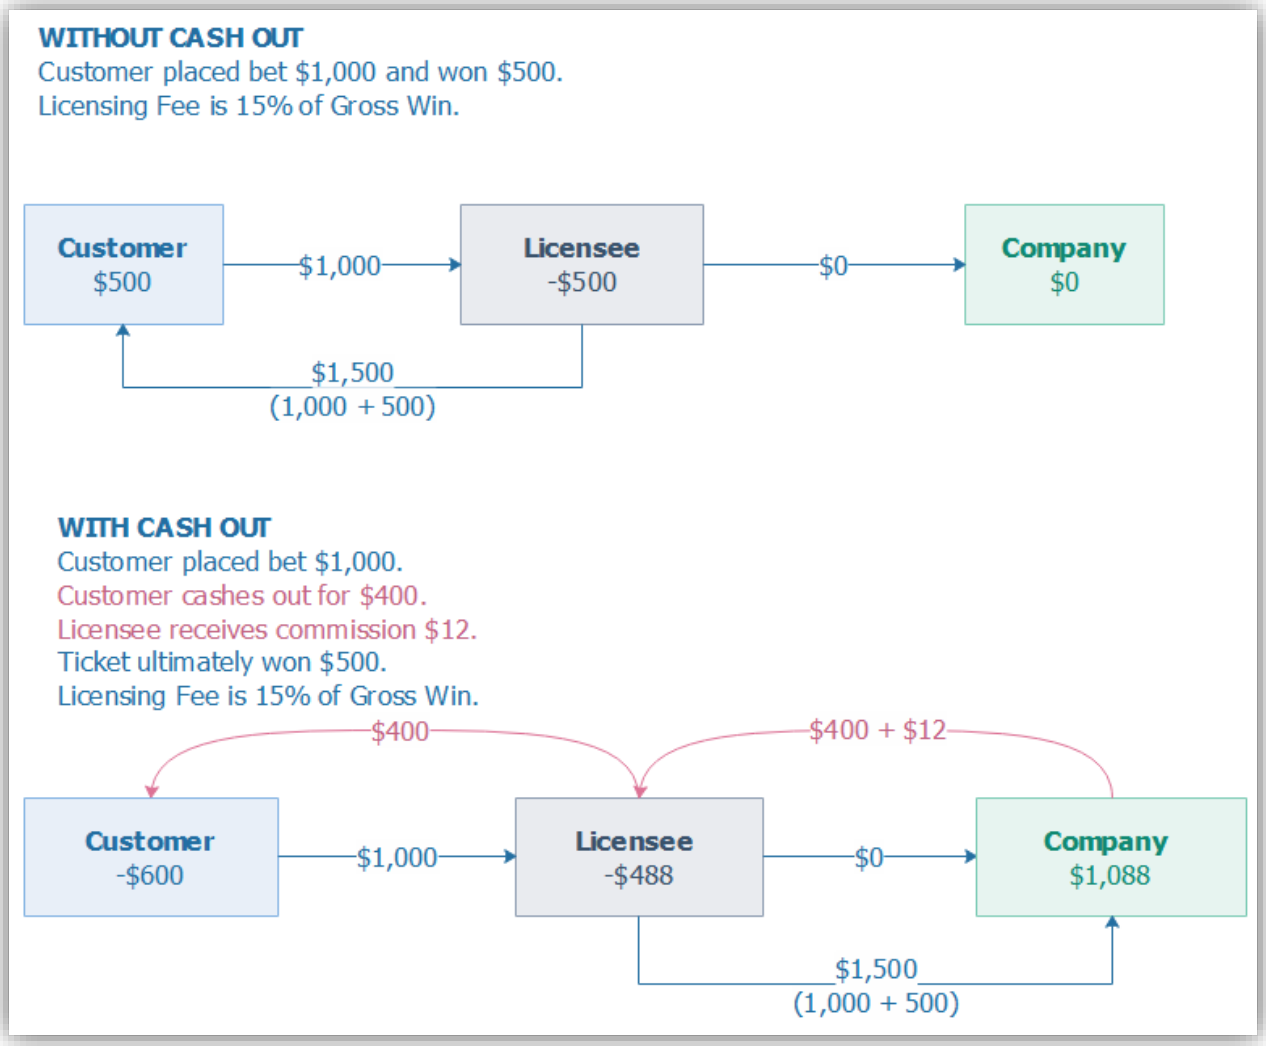

Figure 2.1.2. Cash out a winning Sportsbook ticket

2.2. BA Tickets

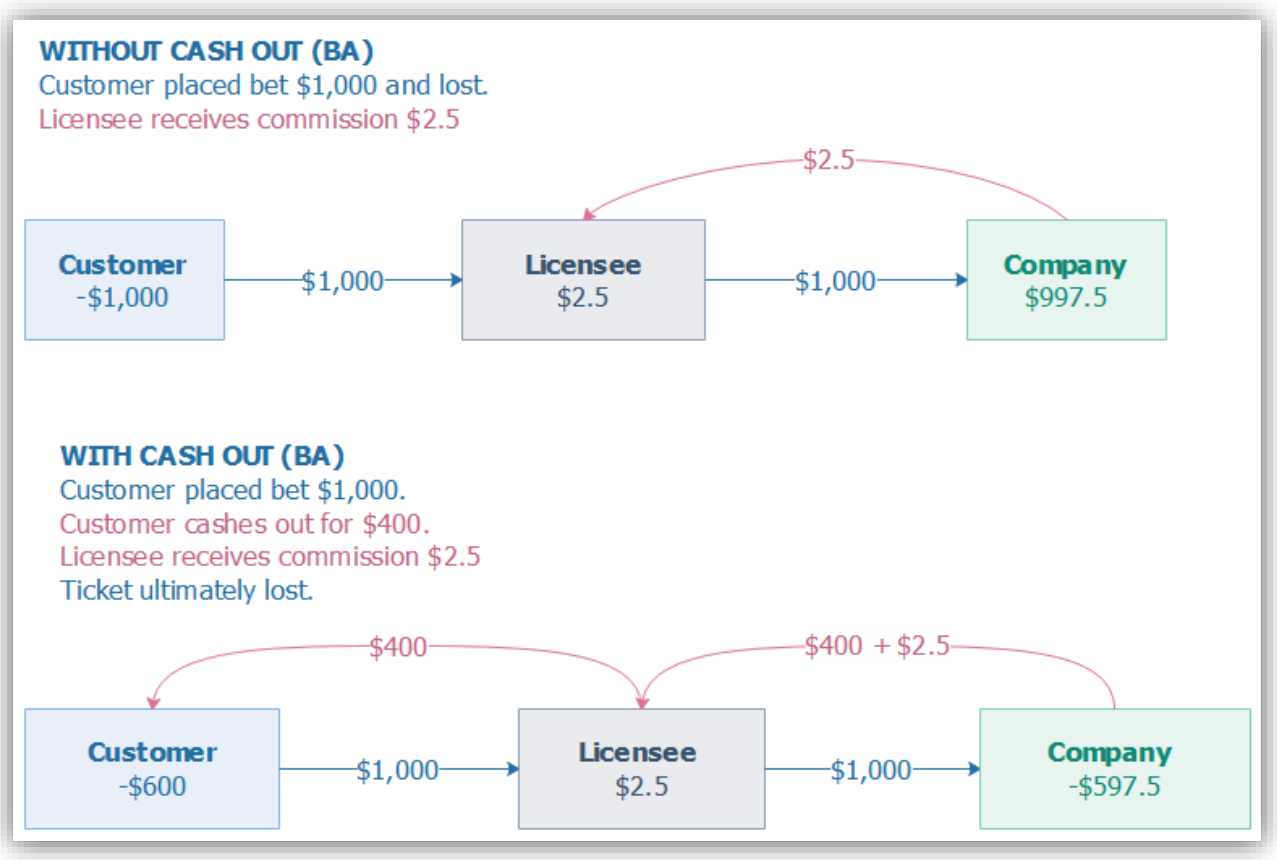

Figure 2.2.1. Cash out a losing BA ticket

3. Report Guidelines

- **Date (mm/dd/yyyy):** can be daily or monthly based on the selection.
- **Currency:** offered currency has been selected by Licensee. To view in detail click on each currency.
- **Cash Out Times:** number of times that customers cash out bet tickets.
- **Cash Out Tickets:** number of bet tickets that customers cash out.
- **Cash Out Value:** the total stake amount of Cash Out tickets.

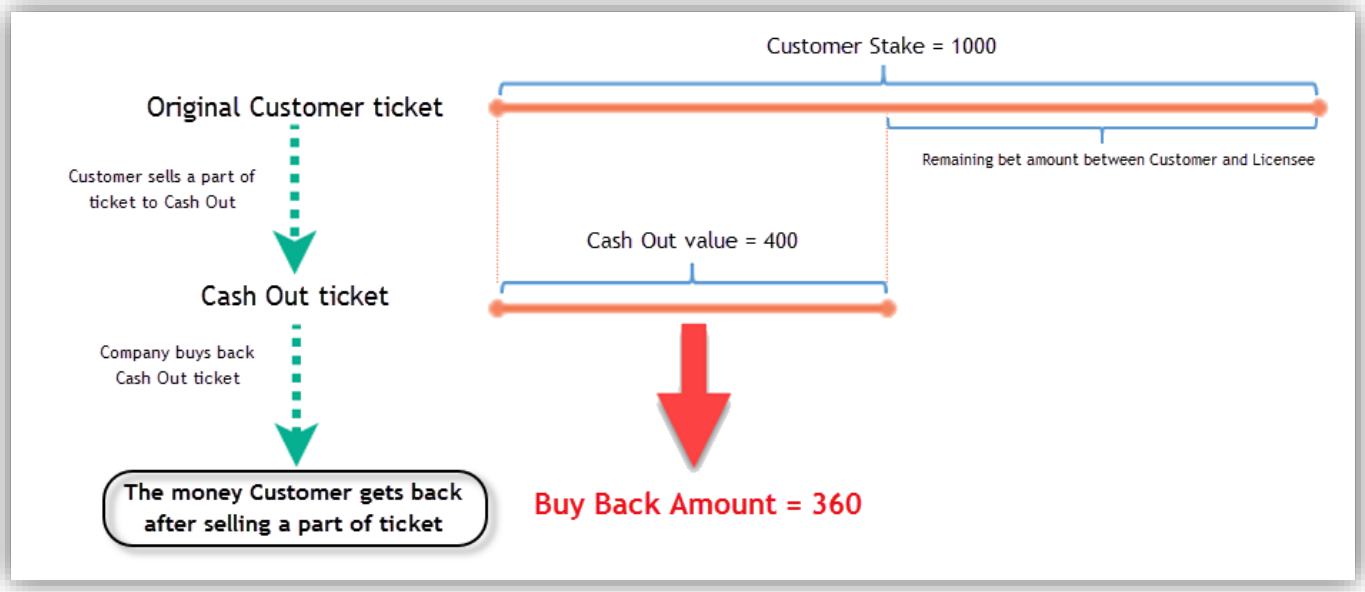

Figure 3.1. Customer cashed out 400/1000 of his ticket

- **Buy Back Amount:** the amount has been spent to buy Cash Out tickets.

For example, member had sold a ticket (stake = € 2,000) in 3 times as below:

Cash Out Time	Current Stake	Cash Out Value	Buy Back Amount	Remaining Stake
1st	2,000	500	480	1,500
2nd	1,500	300	290	1,200
3rd	1,200	600	590	600
Total		**1,400**	**1,360**	

These figures will be displayed in the report as below:

Cash Out Win Loss, 04/01/2018 → 04/16/2018 - All Currencies

#	Date	Currency	Cash Out Times	Cash Out Tickets	Cash Out Value	Buy Back Amount		
						Sportsbook	BA	Total
1	04/04/2018	EUR	3	1	1,400.00	1,360.00	0.00	1,360.00

Figure 3.2. Cash Out Win Loss report

- **Ticket Payout:** the total win loss amount Licensee needs to pay to or receive from Company based on Cash Out tickets.

  Example:

Ticket Status	Cash Out value	Odds *(Dec)*	Customer Win Loss	Ticket Payout *(including stake)*
Won	100	1.5	50	150 (100 + 50)
Draw			0	100 (100 + 0)
Lose			-100	0 (100 + [-100])

- **Cash Out Commission:** the commission amount Licensee received based on Cash Out tickets (Sportsbook only).

  Cash Out Commission = Buy Back Amount from Sportsbook * Commission rate (%)

- **Amount Due:**
  - **Ticket Payout:** the total win loss amount Licensee needs to pay to or receive from Company based on Cash Out tickets.
  - **BB Amt + Comm:** the amount Company has spent to buy Cash Out tickets including commission

    [BB Amt + Comm] = Total of Buy Back Amount + Cash Out Commission
  - **Total**: the settlement amount that Licensee has paid or received based on Cash Out Product. Note that for Amount Due, the negative number indicates the receiving amount from Company and the positive number indicates the paying amount to Company.

    Total = Ticket Payout – [BB Amt + Comm]
